

# Agriculture & Resource Conservation

## FAST FACTS

Current Statistics	Northern Tier	Pennsylvania
Number of Employers	80	2,900
Number of Jobs	5,700	94,600
Average Earnings Average industry earnings per worker includes benefits	\$14,500	\$22,100
% of Total Employment	7.0%	1.3%

Based on historical trends, the agriculture & resource conservation "green" sector is expected to decrease employment between 2009 and 2019 in the Northern Tier. This does not take into account any future investments made in "green" technologies, which will certainly have an impact on job demand.

All jobs in the Northern Tier are expected to grow by 5% between 2009 and 2019. The number of jobs in the agriculture & resource conservation "green" sector is expected to decrease when looking at current projections, but job openings may become available due to replacement.

### Top Occupations by Percent of Industry

1. Farmers and ranchers (61%)
2. Farm, ranch, and other agricultural managers (16%)
3. Farmworkers and laborers, crop, nursery, and greenhouse (7%)
4. Logging equipment operators (1%)
5. Supervisors, farming, fishing, and forestry workers (1%)
6. Bookkeeping, accounting, and auditing clerks (1%)
7. Farmworkers, farm and ranch animals (1%)

### Work Where?

The agriculture & resource conservation "green" sector offers opportunities for you to work in a variety of settings. Some places you may find employment include:

- Crop and animal production
- Logging
- Other surveying and mapping services
- Landscape architectural services
- Timber tract operations
- Other technical consulting services

### How Much Training:

There are jobs for a variety of education levels

Long-term on-the-job training	59%
Degree plus work experience	16%
Short-term on-the-job training	10%
Moderate-term on-the-job training	9%
Work experience in a related field	2%
Bachelor's degree	2%
Postsecondary vocational award	1%
Associate's degree	1%

\*Proportion of jobs that typically require the corresponding level of training or education

### WorkKeys® Assessment Scores for Sample Occupations

# Agriculture & Resource Conservation

## DEFINITION

*Includes production of inputs (crops or wood) for bio-fuels; improvement of natural resources and the environment; and sustainable and organic agriculture that maintain or improve land and avoid the use of industrial chemicals.*

NAICS	Industry	NAICS	Industry
111000	Crop Production	541360	Geophysical Surveying & Mapping Services
113110	Timber Tract Operations	541370	Other Surveying & Mapping Services
113210	Forest Nursery/Gathering Forest Products	541690	Other Technical Consulting Services
113310	Logging	924120	Administration of Conservation Programs
541320	Landscape Architectural Services	925120	Urban & Rural Development Admin

# Clean Transportation

## FAST FACTS

Current Statistics	Northern Tier	Pennsylvania
Number of Employers	2	660
Number of Jobs	60	25,100
Average Earnings Average industry earnings per worker includes benefits	\$47,000	\$90,700
% of Total Employment	0.1%	0.4%

Based on historical trends, the clean transportation “green” sector is expected to grow by less than 10 jobs between 2009 and 2019 in the Northern Tier. This does not take into account any future investments made in “green” technologies, which will certainly have an impact on job demand.

### Top Occupations by Percent of Industry

1. Management analysts (36%)
2. Managers, all other (<1%)
3. Chief executives (<1%)
4. Office clerks, general (<1%)
5. Sales representatives, services, all other (<1%)
6. Employment, recruitment, and placement specialists (<1%)
7. Customer service representatives (<1%)

All jobs in the Northern Tier are expected to grow by 5% between 2009 and 2019. Jobs in the clean transportation “green” sector are expected to grow by 4%.

### How Much Training:

There are jobs for a variety of education levels

Degree plus work experience	30%
Moderate-term on-the-job training	28%
Bachelor's degree	19%
Short-term on-the-job training	14%
Work experience in a related field	9%

\*Proportion of jobs that typically require the corresponding level of training or education

# Clean Transportation

# DEFINITION

*Includes public transit (rail, subways, and other transit systems) and vehicle manufacturing (automobile, aircraft, and parts manufacturing), increasing portions of which will use fuels other than gasoline and/or use energy more efficiently.*

NAICS	Industry	NAICS	Industry
324110	Petroleum Refineries	336411	Aircraft Manufacturing
324199	All Other Petroleum & Coal Products	336412	Aircraft Engine & Engine Parts
336111	Automobile Manufacturing	336611	Ship Building & Repairing
336112	Light Truck & Utility Vehicle Mfg	336612	Boat Building
336120	Heavy Duty Truck Manufacturing	336991	Motorcycle, Bicycle & Parts Mfg
336213	Motor Home Manufacturing	541614	Process & Logistics Consulting Services
336312	Gasoline Engines & Engine Parts	926120	Transportation Program Administration
336350	Motor Vehicle Power Train Components		

# Energy Efficiency

## FAST FACTS

Current Statistics	Northern Tier	Pennsylvania
Number of Employers	220	21,800
Number of Jobs	2,200	239,100
Average Earnings Average industry earnings per worker includes benefits	\$36,600	\$66,500
% of Total Employment	2.7%	3.4%

Based on historical trends, the energy efficiency “green” sector is expected to grow by 170 jobs between 2009 and 2019 in the Northern Tier.

All jobs in the Northern Tier are expected to grow by 5% between 2009 and 2019. Jobs in the energy efficiency “green” sector are expected to grow by 8%.

### Top Occupations by Percent of Industry

1. Carpenters (19%)
2. Construction laborers (10%)
3. First-line supervisors/managers of construction trades and extraction workers (9%)
4. Construction managers (8%)
5. Electricians (5%)
6. Painters, construction and maintenance (5%)
7. Heating, air conditioning, and refrigeration mechanics and installers (4%)

### Work Where?

The energy efficiency “green” sector offers opportunities for you to work in a variety of settings. Some places you may find employment include:

- New single-family general contractors
- Residential remodelers
- Commercial building construction
- Residential plumbing and HVAC contractors
- Nonresidential plumbing and HVAC contractors
- Residential electrical contractors
- Nonresidential electrical contractors

### How Much Training:

There are jobs for a variety of education levels

Long-term on-the-job training	33%
Moderate-term on-the-job training	29%
Bachelor's degree	13%
Work experience in a related field	11%

# Energy Efficiency

## DEFINITION

*Includes efforts to reduce energy consumption of existing buildings and industrial processes, efforts to improve the efficiency of new buildings (green building), efforts to reduce energy lost in the distribution of electricity, and “demand management” (e.g., reducing the highest level of demand, “peak demand,” because that demand is often satisfied by the most polluting generating capacity).*

NAICS	Industry	NAICS	Industry
221330	Steam & Air-Conditioning Supply	333415	AC, Refrig. & Forced Air Heating Mfg
236115	New Single-Family Housing Construction	334512	Automatic Environmental Control Mfg
236116	New Multifamily Housing Construction	334513	Industrial Process Variable Instruments
236117	New Housing Operative Builders	334514	Fluid Meters & Counting Devices
236118	Residential Remodelers	335110	Electric Lamp Bulb & Part Manufacturing
236210	Industrial Building Construction	335221	Household Cooking Appliance Mfg
236220	Commercial Building Construction	335222	Household Refrigerators & Freezers

# Pollution Prevention & Environmental Clean-Up

## FAST FACTS

Current Statistics	Northern Tier	Pennsylvania
Number of Employers	30	2,500
Number of Jobs	400	64,600
Average Earnings Average industry earnings per worker includes benefits	\$44,000	\$88,200
% of Total Employment	0.5%	0.9%

Based on historical trends, the pollution prevention & environmental clean-up “green” sector is expected to grow by less than 10 jobs between 2009 and 2019 in the Northern Tier. This does not take into account any future investments made in “green” technologies, which will certainly have an impact on job demand.

All jobs in the Northern Tier are expected to grow by 5% between 2009 and 2019. Jobs in the pollution prevention & environmental clean-up “green” sector are expected to grow by 1%.

### Top Occupations by Percent of Industry

1. Refuse and recyclable material collectors (18%)
2. Truck drivers, heavy and tractor-trailer (5%)
3. Managers, all other (5%)
4. Electrical and electronics repairers, commercial and industrial equipment (3%)
5. Construction laborers (3%)
6. Team assemblers (3%)
7. Management analysts (3%)

### Work Where?

The pollution prevention & environmental clean-up “green” sector offers opportunities for you to work in a variety of settings. Some places you may find employment include:

- Solid waste collection
- Miscellaneous electrical equipment mfg.
- Physical, engineering and biological research
- Water and sewer system construction
- Environmental consulting services
- Solid waste landfill

### How Much Training:

There are jobs for a variety of education levels

Short-term on-the-job training	24%
Moderate-term on-the-job training	24%
Bachelor's degree	18%
Work experience in a related field	10%
Associate's degree	9%
Degree plus work experience	6%
Postsecondary vocational award	4%

# Pollution Prevention & Environmental Clean-Up

## DEFINITION

*Includes efforts to restore polluted land and rivers to health and also includes clean and green industrial processes that lower toxic emissions in production. Maintenance of water and sewer infrastructure to reduce pollution and “soft” (non-structural) approaches to eliminating contaminants from water are also included in this category.*

NAICS	Industry	NAICS	Industry
237110	Water & Sewer System Construction	562111	Solid Waste Collection
335911	Storage Battery Manufacturing	562119	Other Waste Collection
335999	Miscellaneous Electrical Equipment	562212	Solid Waste Landfill
541380	Testing Laboratories	562213	Solid Waste Combustors & Incinerators
541620	Environmental Consulting Services	562219	Other Nonhazardous Waste Disposal
541710	Physical/Engineering/Bio Research	924110	Air, Water & Waste Program Admin

# Renewable Energy

## FAST FACTS

Current Statistics	Northern Tier	Pennsylvania
Number of Employers	20	730
Number of Jobs	380	26,400
Average Earnings Average industry earnings per worker includes benefits	\$72,800	\$88,100
% of Total Employment	0.5%	0.4%

Based on historical trends, the renewable energy “green” sector is expected to decrease employment between 2009 and 2019 in the Northern Tier. This does not take into account any future investments made in “green” technologies, which will certainly have an impact on job demand.

All jobs in the Northern Tier are expected to grow by 5% between 2009 and 2019. The number of jobs in the renewable energy “green” sector is expected to decrease when looking at current projections, but job openings may become available due to replacement.

### Top Occupations by Percent of Industry

1. Power plant operators (11%)
2. Electrical power-line installers and repairers (10%)
3. Electrical and electronics repairers, powerhouse, substation, and relay (7%)
4. Nuclear power reactor operators (5%)
5. Carpenters (4%)
6. Construction laborers (4%)
7. Construction managers (3%)

### Work Where?

The renewable energy “green” sector offers opportunities for you to work in a variety of settings. Some places you may find employment include:

- Electric power distribution
- Other heavy construction
- Power and communication system construction
- Electric power and specialty transformer mfg.

### How Much Training:

There are jobs for a variety of education levels

Long-term on-the-job training	30%
Moderate-term on-the-job training	23%
Short-term on-the-job training	13%
Bachelor's degree	11%
Postsecondary vocational award	9%
Work experience in a related field	7%
Associate's degree	4%
Degree plus work experience	3%

\*Proportion of jobs that typically require the corresponding level of training or education
