# Northern Tier Regional Planning and Development Commission

## Northern Tier Rural Planning Organization (RPO)

### Annual Report of Federally Obligated Projects

**FFY 2020 (October 1, 2019 – September 30, 2020)**

#### **Northern Tier RPO**

The Northern Tier RPO is a Planning Partner with the Pennsylvania Department of Transportation. In which federal transportation funds are planned and programmed for investment within Bradford, Sullivan, Susquehanna, Tioga and Wyoming Counties.

#### **Annual Obligation Report**

The FFY 2019-2022 STIP Planning Finding identified one Corrective Action: all MPOs must develop an Annual Listing of Obligated Projects for which Federal funds have been obligated in the previous year in accordance with 23 CFR 450.334.

The annual listing of obligated projects is required through the current federal transportation bill. This bill, known as the Fixing America's Surface Transportation (FAST) Act, requires Metropolitan Planning Organizations (MPOs) to publish a list of all projects for which federal funds have been obligated in the previous year. This report responds to the requirements of this statute, listing the federally-funded transportation projects that were obligated in federal fiscal year (FFY) 2020 (October 1, 2019 to September 30, 2020). This requirement applies specifically to MPOs. However, since PennDOT has developed agreements with all planning partners that position Rural Planning Organizations (RPOs) as equals with regard to MPO planning requirements, Federal Transit Administration (FTA) and Federal Highway Administration (FHWA) have strongly recommend that the RPOs meet this specific requirement for transparency purposes.

The federal transportation planning statute states:

*In metropolitan planning areas, on an annual basis, no later than 90 calendar days following the end of the program year, the State, public transportation operator(s), and the MPO shall cooperatively develop a listing of projects (including investments in pedestrian walkways and bicycle transportation facilities) for which funds under 23 U.S.C. or 49 U.S.C. Chapter 53 were obligated in the preceding program year.*

The Northern Tier RPO being a Planning Partner with PennDOT and having agreements with PennDOT it is required to develop an Annual Listing of Obligated Projects for which Federal Funds have been obligated in the previous year in accordance with 23 CFR 450.334.

During the 2019-2020 period, the NT RPO programmed a total of **\$40,585,705** for 102 phases of 72 projects. The 102 phases were divided into seven funding categories.

- Bridge Off System – 12 projects totaling \$3,358,422 (8.27% of total)
- Congestion Management/Air Quality – 1 project totaling \$472,000 (1.16% of total)
- Enhancement – 1 project totaling \$578,200 (1.42% of total)
- National Highway Performance Program – 11 projects totaling \$7,735,476 (19.06%)
- Safety – 8 projects totaling \$3,042,244 (7.50% of total)
- Special Funds - 29 projects totaling \$5,429,371 (13.38% of total)
- Surface Transportation Program – 11 projects totaling \$19,969,992 (49.20% of total)

**Funding Class Description:**

**Bridge Off System Funds:** Used for County, Local Municipal and Rural State highway bridges.

**CMAQ Funds:** Used for projects to reduce roadway traffic and improve air quality. Those projects include off-road trail heads and off-road hiking and biking trails.

**Enhancement/TAP Funds:** Used for projects that improve pedestrian and bicycle mobility in downtown areas. Along with off-road trails.

**NHPP Funds:** Used for projects to support and enhance the National Highway System (NHS).

**Safety Funds:** Used for projects to minimize crashes and improve safety such as guiderail, low cost safety improvements.

**Special Funds:** Used for specific projects such as emergency flood projects.

**Surface Transportation Program Funds:** Funds that are flexible and used on projects for highway, bridge and bike/pedestrian.
