

Planning Starts with You- PennDOT Connects

PennDOT Connects is **improving communities and transportation systems** through collaboration with PennDOT, regional planning organizations and municipalities. Your role in your municipality is valuable to the planning process for projects because you know what works for your community, but what else should you know about the planning process?

That is why we invite you to join us for the course, *PennDOT Connects*, to interact with PennDOT and regional planning staff about the specific collaboration opportunities and the partnership overall.

Below is the available dates and locations for the PennDOT Connects course:

- **Wednesday, April 3rd from 6pm—8pm**
Wyoming County EOC —
3880 US-6, Tunkhannock, PA 18657
- **Thursday, April 4th from 6pm—8pm**
Wysox Volunteer Fire Co fire hall —
111 Lake Rd, Wysox, PA 18854

This two-hour workshop will explain the PennDOT Connects policy, how it is being implemented, and how communities benefit and engage in the process. You will have a better understanding of the following:

- Your role and responsibilities as a municipality, including being a “conduit” to other community stakeholders.
- The value of planning in relation to PennDOT Connects and broader benefits.
- The various opportunities for collaboration with PennDOT and the Metropolitan Planning Organizations (MPO)/Rural Planning Organizations (RPO) through every phase of planning and project delivery.
- How you and PennDOT/MPOs/RPOs can partner to help ensure that transportation projects are developed in consideration of local priorities.

To sign up, please contact **Brian Baker** at **570-265-1540** baker@northerntier.org

or **Katie Prichard** at **570-265-1532** prichard@northerntier.org
